PROJECTS

Rishikesh Tourism Website | *React, Node.js, Express, MongoDB*

Feb 2025 – June 2025

- Built a visually engaging tourism website for Rishikesh with responsive design and real-time UI effects.
- Integrated SwiperJS sliders, parallax backgrounds, and animated scroll sections for an immersive user experience.
- Designed modular sections (destinations, hotels, food, gallery, contact) using HTML5, CSS3, and JavaScript; deployed on Vercel for live access.

Movie Recommendation System | *Python, Scikit-learn, NLP*

Jan 2025 – March 2025

- Developed a movie recommendation model using Cosine Similarity and CountVectorizer.
- Built a dashboard to track monthly fee status of 50+ members using MongoDB.
- Preprocessed and cleaned large datasets to improve accuracy and efficiency

Restaurant Landing Page | *HTML, CSS, JAVASCRIPT*

Aug 2024 – Sept 2024

- Created a modern restaurant landing page with GSAP-based scroll animations, image sliders, and dynamic text effects.
- Designed custom sections including hero banner, menu highlights, image gallery, and smooth loader transitions.
- Engineered a responsive React application and deployed on Vercel, achieving page load times across devices.
